Population Density of Coastal Areas

Source: Centre for International Earth Science Information Network (CIESIN), Columbia University. Low Elevation Coastal Zone (LECZ) Urban-Rural Estimates, Global Rural-Urban Mapping Project (GRUMP),

Centre (SEDAC), Columbia University accessed on 2 April 2010 at

1 LECZ estimates from digital elevation model (DEM) by selecting all land contiguous with the coast that was 10 meters or less in elevation.

Zonal statistics were generated for total population and land area for the country as a whole and within the LECZ.
